The APY is based on an assumption that dividends will remain on deposit until maturity.

Dividends are calculated by the average daily balance method. A penalty will be imposed if a withdrawal is done prior to the maturity date. The penalty could result in a deduction of principal.

**All term share certificates are subject to the following dividend penalties.**

Terms of 91 days, 6 months, 9 months and 12 months are subject to a 30 day penalty of dividends.

Terms of 18 months and 24 months are subject to a 90 day penalty of dividends.

Terms of 30 months, 36 months and 48 months are subject to a 180 day penalty of dividends.

When opening a term share certificate certain restrictions apply, see Par Value of Share and Fees above.

**Ask About "Special" Rates for deposits of \$100,000.00 or more.**
